

UW FACILITIES TEAM CHARTER

| | |
|--------------|--|
| TEAM NAME: | Grounds Improvement Advisory Committee (GIAC) |
| SPONSOR: | John Chapman, AVP UW Facilities |
| TEAM LEADER: | Director, UW Facilities Maintenance & Construction |
| DURATION: | Ongoing (biennial appointments) |

CHARGE

The purpose of the Committee is to have a leadership role in the oversight of all exterior operational impacts relative to campus construction projects; pedestrian, bicycle and vehicular traffic; general and construction parking; campus graphics and signage; pedestrian safety and access; and review a prioritized list of improvements to the campus grounds outside the scope of the regular UW Facilities maintenance program and which are not associated with specific building construction projects.

DELIVERABLES

- Review all construction projects for their potential impacts to campus operations and ensuring mitigation plans have been developed and implemented using the Campus Construction Work Area Preparation Check List;
- Review requests for construction laydown areas and contractor parking and make determinations as to the proper course of action;
- Review campus traffic patterns, traffic and parking control signage and devices, bus traffic, access and layover locations and makes determinations regarding changes or improvements;
- Review proposals to ensure that issues of pedestrian safety and access, along with safeguarding the appearance of the University's environment has been considered;
- Review, make determinations regarding changes or improvements, and approve requests for temporary/short-term graphics and signage.
