

# SEPA Advisory Committee Meeting

DATE: February 8, 2018

TIME: 10:00-11:00 AM

LOCATION: UFB G41

## Attendees

UW: Doug Galucci, Zackery Howard, David Ogrodnik, Frieda Taub, Rob Lubin, Julie Blakeslee; EA: Rich Schipanski

Agenda Topic: Husky Stadium Transportation Management Plan (TMP) Preliminary Draft Environmental Impact Statement (DEIS)

Husky Stadium TMP – Draft EIS	Julie Blakeslee
<p>The desire is to publish the Draft EIS later this month.</p> <p>This is a single element of the environment EIS, focused on the only topic area that could change with implementation of the updated TMP, transportation. The UW Athletics is not building anything, not changing the use of the stadium, is not adding or subtracting the number of seats (occupancy). The updated TMP is anticipated to reduce the number of auto trips compared to the existing TMP as the non-auto trip goals will be higher and match or exceed today's trips.</p> <p><u>Discussion:</u> What neighborhood groups will be concerned, and will they begin given notice? All of the surrounding neighborhood groups and CUCAC will be given notice as they do for all of our SEPA public notices. We anticipate they will have concerns regarding congestion before and after events and the potential for parking in the neighborhoods. We have included this information as analyzed for the Draft EIS.</p> <p>Typographical errors and word choices were provided by the committee members.</p> <p>The committee concurred that the Draft EIS should be published.</p>
